Thank you for your support of The Art of the Negro Spiritual research project!!

The Art of the Negro Spiritual (ANS) is a research project that is looking into the rich history of the Negro spiritual as written for solo vocal performance. We are researching the development of spirituals from the folk music of slaves to the art songs set for performance on the concert stage. The results of the research will be a book with accompanying recording of selected settings of Negro spirituals. To learn more about ANS, please visit www.artofthenegrospiritual.com or call 641/821-0188.
